BRINGING SPACE TO EARTH

30 MAY - 03 JUNE, 2016  
THE HAGUE, THE NETHERLANDS

#EUSPACE16

VISIT THE EUROPEAN SPACE EXPO  
Discover the many ways in which the EU space programmes help EU citizens 'on the ground' every day

The conference will be accompanied by the **European Space Expo** that will visit The Netherlands from 27 May to 5 June 2016. The free exhibition will be installed in Het Plein in The Hague's old city centre. Over 900,000 citizens from across Europe have already been inspired by this popular exhibition.

### BRINGING SPACE TO EARTH

**30 May - 03 June 2016**

The Hague, The Netherlands

The fourth edition of the European Space Solutions conference is set for May 30th through June 3rd 2016 in The Hague, The Netherlands. Under the auspices of the 2016 Dutch Presidency of the European Council, this five-day event will highlight how space-based services and technologies are the key to providing the efficient, effective and sustainable services that European society demands.

With a focus on Galileo, EGNOS, Copernicus, Space Policy and Space Research, the conference will bring together leaders and representatives of the public and private sectors from Europe and across the globe, along with users, developers and thought leaders for a wide array of presentations, panel discussions, workshops and a unique hands-on showcase of innovative space solutions.

Don't miss this opportunity for an inside look at the possibilities space applications offer to a wide range of business sectors.

**Register today!**

**30 MAY**

Official Opening Ceremony and High Level Plenary Session: **"Harnessing Space to Tackle Europe's Challenges"** followed by an Official Welcome Reception hosted by the government of The Netherlands.

**31 MAY**

**Space Policy Conference** continues and opening of the first **European Space Solutions Exhibition**, showcasing over 50 innovative space-powered applications, technology solutions and cutting-edge research results.

**1-3 JUNE**

Opening of the User-driven seminars focusing on the latest trends in leveraging Space Solutions for **Agriculture & Food, Smart Mobility, Climate Change, River Deltas, Environment, Health & Safety and Energy** + live demonstrations, exchange with experts, networking opportunities and much more...
